The Marann-Christie Meierz 2013-10-29 WINNER of the 2013 Prism Award for Futuristic Romance! "A beautifully realized story that proves that politically driven space opera and tender love stories do not have to be mutually exclusive." Kirkus Reviews "For anyone who enjoys tightly written, wonderfully imaginative Science Fiction wrapped with romance, this one is a must!" InDTale Magazine A story that will appeal to fans of Marion Zimmer Bradley and Zenna Henderson, The Marann recounts one woman's experience on a world where everyone can read her emotions. Marianne Woolsey is a high school Spanish teacher in rural Iowa, when Earth Central Command decides her linguistic talents would be better exercised if she spent 26 years teaching the daughter and heir of an alien ruler on a planet 24 light years from Earth. Now she's alone on a planet of aliens so humanlike that she has to keep telling herself her student's noble father is just her boss. Handsome - and deadly - the Sural has ruled his province and led his planet far longer than he can admit to his
daughter's human tutor. He hides much more from the space-faring races of the Trade Alliance than he is willing to reveal. What he doesn't want Central Command to know, he has to conceal from Marianne, but Marianne is concealing her own secrets from him - and as an empath, he knows it. The Marann is a sweet romance. Might not be suitable for young teens.

**Daughters of Suralia**-Christie Meierz 2014-06-06 By the award-winning author of The Marann. Three women, two planets, and a whale... For Marianne Woolsey, linguist and tutor, being empathically bonded to the leader of the Tolari turns out to be a bed of roses - complete with thorns. Especially thorns. With diplomatic relations severed and humans kicked out of Tolari space, the Earth Fleet ship Alexander is gone ... for now ... but Earth Central Command hasn't given up trying to get Marianne back. As she struggles with surprises, nightmares, and a bond-partner who can't be tamed, she just wants to figure out where she fits in a society that isn't quite human. Laura Howard, the Admiral's widow, only desires to be left in peace to gather the fragments of a shattered heart, but Central Command has plans for her, too. Meanwhile, the Sural's apothecary is a serene and gifted healer who knows what - and who - she wants. Circumstances have conspired to deny her the man she's always loved, but in the pursuit of his heart, she finds an unexpected ally. Daughters of Suralia is a non-erotic scifi romance.

Until a gigantic “BOOM!” echoes from the alley a minute later, and Ree follows the rabbit hole down into her town’s magical flip-side. **Declining by Degrees**-Richard H. Hersh 2015-04-07 What is actually happening on college campuses in the years between admission and graduation? Not enough to keep America competitive, and not enough to provide our citizens with fulfilling lives. When A Nation at Risk called attention to the problems of our public schools in 1983, that landmark report provided a convenient "cover" for higher education, inadvertently implying that all was well on America's campuses. Declining by Degrees blows higher education's cover. It asks tough--and long overdue--questions about our colleges and universities. In candid, coherent, and ultimately provocative ways, Declining by Degrees reveals: - how students are being short-changed by lowered academic expectations and standards; -why many universities focus on research instead of teaching and spend more on recruiting and athletics than on salaries for professors; -why students are disillusioned; -how administrations are obsessed with rankings in news magazines rather than the quality of learning; -why the media ignore the often catastrophic results; and -how many professors and students have an unspoken "non-aggression pact" when it comes to academic effort. Declining by Degrees argues persuasively that the multi-billion dollar enterprise of higher education has gone astray. At the same time, these essays offer specific prescriptions for change, warning that our nation is in fact at greater risk if we do nothing.

**PoTENtial**-Keith Johnson 2019-07-03 Do you know nearly 10,000 churches close their doors each year? More than 1,700 pastors are uncalling themselves from ministry every month because they are grossly underpaid, underappreciated, and just plain burned out. That is why I wrote PoTENtial: The Secret Power of Ten. What do John D. Rockefeller, Henry Ford, Oprah Winfrey, Kim Kardashian, TD Jakes, and Billy Graham all have in common? They were practitioners of the Secret Power of Ten. Since the dawn of creation, God has hidden miracles inside of principles. But only one has been the key to wealth and wisdom for saints and sinners alike. This book takes believers on a journey to discover a Kingdom principle that could change the course of their destiny and the destiny of your church. How? When resources increase, churches can better care for their pastor financially. They can fulfill their potential as an organization. And ultimately, fully participate in the Great Commission.

**Crosstalk**-Connie Willis 2016-10-04 Science fiction icon Connie Willis brilliantly mixes a speculative plot, the wit of Nora Ephron, and
the comedic flair of P. G. Wodehouse in Crosstalk—a genre-bending novel that pushes social media, smartphone technology, and twenty-four-hour availability to hilarious and chilling extremes as one young woman abruptly finds herself with way more connectivity than she ever desired. NAMED ONE OF THE BEST BOOKS OF THE YEAR BY NPR In the not-too-distant future, a simple outpatient procedure to increase empathy between romantic partners has become all the rage. And Briddey Flannigan is delighted when her boyfriend, Trent, suggests undergoing the operation prior to a marriage proposal—to enjoy better emotional connection and a perfect relationship with complete communication and understanding. But things don’t quite work out as planned, and Briddey finds herself connected to someone else entirely—in a way far beyond what she signed up for. It is almost more than she can handle—especially when the stress of managing her all-too-eager-to-communicate-at-all-times family is already burdening her brain. But that’s only the beginning. As things go from bad to worse, she begins to see the dark side of too much information, and to realize that love—and communication—are far more complicated than she ever imagined. Praise for Crosstalk “A rollicking send-up of obsessive cell phone usage in too-near-future America . . . [Connie] Willis’s canny incorporation of scientific lore, and a riotous cast . . . make for an engaging girl-finally-finds-right-boy story that’s unveiled with tact and humor. Willis juxtaposes glimpses of claimed historical telepaths with important reflections about the ubiquity of cell phones and the menace that unscrupulous developers of technology pose to privacy, morality, and emotional stability.”—Publishers Weekly “An exhilarating and laugh-inducing read . . . one of those rare books that will keep you up all night long because you can’t bear to put it down.”—Portland Book Review “A fun technological fairy tale.”—BookPage “One of the funniest SF novels in years.”—Locus

The Exchange-Sophie Cabot Black 2013-05-07 "Black's voice is startling, jagged and implacable, and [her poetry] is steep, precipitous and dazzling." --Los Angeles Times Book Review * A finalist for the Lambda Literary Award for Poetry * I took care of myself. I took care Of myself, thinking much too often I took care of someone else. Everything feels like payment. --from "Pay Attention" In The Exchange, Sophie Cabot Black explores the surprising interplay between mortality and money, between the next world and this one, between the language of disease and the language of finance. Following a beloved friend through a long illness and eventual loss, these poems confront in stark emotion the aftermath, even as the outside world--the world of debts paid and collected, of power and dominion--intrudes.
