Langley 2020 Anxious to escape the confines of Regelence society, if only for a little while, Prince Payton Townsend poses as an admiral's aide to further investigate a dangerous conspiracy.Payton plans only to use his computer skills to help navigate the tangled web of mystery and deceit on planet Englor, then return home, but he finds himself drawn to the charismatic Colonel Simon Hollister. Simon, however, is no mere soldier--he is heir to the throne of Englor, and his life is meticulously planned to include a bride and heir. Unlike Regelence, the Regency society on Englor disapproves of same-sex relationships, and Payton and Simon's attraction plays out in a daring secret affair, one Simon never expected would grow into love. Risking scandal and certain ruin if they are discovered, Payton and Simon uncover more about a common enemy and a deadly plot that imperils both their worlds. But in this game of interplanetary intrigue, love might be the ultimate casualty....

Rhodes in the Hellenistic Age Richard M. Berthold 2018-10-18 This book offers a detailed political history of Rhodes from the foundation of the Rhodian republic in the fifth century B.C. to the conclusions of Rhodes' alliance with Rome in the second, a period in which Rhodes was a major Mediterranean power. Richard M. Berthold provides a complete account of Rhodian foreign affairs, exploring the principles and reasons behind Rhodes' foreign policy decisions. He traces Rhodes' history through the stormy years of the fourth century to the independence and prosperity of the third, arguing that Rhodes achieved economic and political success by pursuing a course of studied neutrality. Berthold maintains that Rhodes did not willfully abandon its neutral stance during the second century, but rather was forced by events to support Rome, a posture that ultimately led to Rhodes' loss of independence.

Design and Construction of Sanitary and Storm Sewers American Society of Civil Engineers 1970

Remedies for Breach of EC Law Julian Lonbay 1997-03-07 The author discusses a variety of theories on health promotion. He considers the complex realities of today's health care systems to assist practitioners and policymakers in understanding the issues involved, enabling them to design programs that are realistic and workable. Explains how to use logic and reasoning to bridge the gap between grandiose rhetoric and the implementation of useful strategies which can be applied in daily practice. Features ten carefully presented exercises.

A Shortened History of England George Macaulay Trevelyan 1975

The Lidian Chronicle and the Greek Creation of Their Past Carolyn Higbie 2003 Carolyn Higbie uses an inscription of the first century BC from Lindos to study the ancient Greeks and their past. The inscription contains two inventories. The first catalogues some forty objects given to Athena LIndia by figures from the mythological past (including Heracles, Helen, andMenelaus) and the historical past (including Alexander the Great and Hellenistic figures). The second catalogues three epiphanies of Athena LIndia to the townspeople when they were in need of her assistance. By drawing on anthropological approaches as well as archaeological and literary evidence,this book explores what was important to the Greeks about their past, how they reconstructed it, and how they made use of it in their present.

The Zona Nathan L. Yocum 2012-02 It started with the Storms.The world got too hot too fast. The weather wrecked Hell on man's shiny, pretty civilization. With the heat and wet came bugs, with bugs came new diseases, and man's numbers and sanity dwindled.The survivors reformed governments like petty shadows of the world's old empires. They sought answers and justifications, they sought redemption for what they perceived as man's holy smiting.Welcome to the Arizona Reformed Theocracy, otherwise called The Zona.Here the Church rules with power absolute. The laws are simple, all sin is punished swiftly. Preachers enforce the Church's words like old West lawmen.But what happens when a Preacher refuses to kill? What happens when men of honor take a stand against their rulers?

A Historical Guide to Edith Wharton Carol J. Singley 2003-01-30 Edith Wharton, arguably the most important American female novelist, stands at a particular historical crossroads between sentimental lady writer and modern professional author. Her ability to cope with this collision of Victorian and modern sensibilities makes her work especially interesting. Wharton also writes of American subjects at a time of great social and economic change-Darwinism, urbanization, capitalism, feminism, world war, and eugenics. She not only chronicles these changes in memorable detail, she sets them in perspective through her prodigious knowledge of history, philosophy, and religion. A Historical Guide to Edith Wharton provides scholarly and general readers with historical contexts that illuminate Wharton's life and writing in new, exciting ways. Essays in the volume expand our sense of Wharton as a

novelist of manners and demonstrate her engagement with issues of her day.

International Law and the Genetic Resources of the Deep Sea David Kenneth Leary 2006-11-29 Deep-sea genetic resources and the interest of the biotechnology industry in their exploitation are emerging as a significant challenge for international oceans governance. This book is the first comprehensive examination of this issue and explores its relationship with marine scientific research and other activities in the deep sea. As well as a detailed survey of the state of industry interest in this new field of biotechnology it also sets out proposals for future sustainable management of these resources utilizing many existing international law and policy regimes.

A Pictorial History of Costume from Ancient Times to the Nineteenth Century Wolfgang Bruhn 2004-01-01 A collection of annotated illustrations depicting examples of regional attire throughout history.

My Greenhouse Bella Mayo 2021-09-21 A debut collection exploring the experience of first love and heartbreak through poetry, from actress and artist Bella Mayo. My Greenhouse is a collection of poems inspired by the author's first romance, beginning with the seeds of infatuation, blooming for a time into real love, and then eventually dying back, making room for new growth. The pieces evoke the feelings of enchantment, uncertainty, pain, and ultimately healing that come with your first love and heartbreak.

Nothing Is Impossible Dynamo 2012-09-27 'I immersed myself in magic. I read every book I could get my hands on and practised and practised, day after day and night after night. Magic became my world...some might say an obsession.' When you're a kid life can seem tough; tougher for some than others. But the darkest of times can also be the most enlightening. When his late grandddad showed him magic for the first time, Steven Frayne knew there was more to life than hiding from bullies. He had a destiny. A calling. In that moment Dynamo was born: the most exciting magician of the 21st century. Since then, Dynamo has shocked, thrilled and amazed men, women and children, from all walks of life, all over the world. With his mind-blowing illusions, he has catalysed a whole new era of magic. Now, in his very first book, Dynamo invites you to join him on a breathtaking journey across the globe. Be prepared to levitate Lindsay Lohan in Singapore, transform snow into diamonds in the Austrian mountains, and walk on water across the River Thames. Along the way, he reveals how to make the impossible possible, what it takes to pull off the greatest stunts man has seen, and why everyone needs magic in their lives. This is no illusion. This is Dynamo revealed.

Monster High: The Ghoul Next Door Lisi Harrison 2011-04-07 Tensions are running high as Melody teams up with Frankie in a race against time to try and stop Bekka from spilling Jackson's big secret. But Frankie has bigger plans in mind - she and Brett decide to film a documentary to further the RADs cause . . . but Bekka isn't about to let some monster steal her man! Meanwhile, Cleo freaks when her friends bolt on her Teen Vogue photo shoot to be in Frankie's documentary, and she starts giving Melody the evil eye - just what is that royal pain up to? Will Cleo stop at nothing to remain queen bee, even if it means teaming up with Bekka - a normie?!

GNU Octave John W. Eaton 2008 This reference manual is the definitive guide to the GNU Scientific Library (GSL), a numerical library for C and C++ programmers. The manual documents over 1,000 mathematical routines needed for solving problems in science and engineering. - This third edition has been updated for version 1.12 (January 2009). It features numerous corrections, new examples and function descriptions including routines for nonsymmetric and generalised eigensystems, basis splines and Mathieu functions. The GPG key used to sign the GSL source is included in the manual, allowing you to check downloaded files for security. - The authors of this manual are the original developers of the GNU Scientific Library.

Documentary Erik Barnouw 1993 Presents a history of the documentary film

Gizmo's Gadgets 2020-04-27 Gizmo is a clever cat who is on a mission to bring his family together again. Gizmo helps the youngest family member, Marissa, restore quality family time to her home. The story reminds us of how today's technology can get in the way of the simple pleasure of spending time together. This lovely book combines the efforts of three generations of artists who share a special value-family! As an added bonus, the book contains a "Cat Chat" search and find that helps young children learn how to communicate and bond with their pet. A portion of the proceeds will be donated to the Baltimore Humane Society to support the care of the many wonderful pets waiting to be adopted.

The Living Goddesses Marija Gimbutas 2001-01-12 Presents evidence to support the author's woman-centered interpretation of prehistoric civilizations, considering the prehistoric goddesses, gods and religion, and discussing the living goddesses--deities which have continued to be venerated through the modern era.

A Guide to Aging and Well-Being for Healthcare Professionals Norman M. Brier 2020 This book provides practical evidence-based strategies that will help clinicians across a broad range of disciplines to address and discuss the main issues an aging person is likely to face and overcome if they are to maintain a sense of well-being as they age. Based on an extensive body of research, the relevant up-to-date knowledge for each topic is concisely presented, followed by practical, concrete, evidence-based suggestions as to how a healthcare provider might acknowledge and create a partnership with their clients to help the person increase their sense of well-being. Each chapter contains a list of key terms, a summary, and case examples that illustrate in realistic and humanistic ways how a person might present the concern being addressed and intervene. The specific challenges associated with aging that are addressed include: anxiety attached to an increasing awareness of mortality; retirement; the increasing number of losses of significant others; regrets; memory loss; the arrival of old-old age and feelings of loneliness, mattering insufficiently, and a loss of purpose; and finally, dealing with imminent death. This book is suitable for all health professionals who provide clinical services or advice to older adults including physicians (i.e. particularly in the specialties of internal medicine, family medicine, geriatrics, and geriatric psychiatry), nurses, social workers, psychologists, physical therapists, occupational therapists, and audiologists.

Mexico City's Zócalo Benjamin Bross 2021-12-31 "This book presents a case study of one of Latin America's most important and symbolic spaces, the Zâocalo in Mexico City, weaving together historic events and corresponding morphological changes in the urban environment. It poses questions about how the identity of a place emerges; how it evolves and, why does it change? Mexico City's Zâocalo: A History of a Constructed Spatial Identity utilizes the history of a specific place, the Zâocalo (Plaza de la Constituciâon), to explain the emergence and evolution of Mexican identities over time. Starting from the Pre-Hispanic period to present day, the work illustrates how the Zâocalo reveals spatial manifestations as part of the larger socio-cultural zeitgeist. By focusing on the history of changes in spatial production -what Henri Lefebvre calls society's "secretions"- Bross traces how cultural, social, economic and political forces shaped the Zâocalo's spatial identity, and in turn, how the Zâocalo shaped and fostered new identities in return. It will be a fascinating read for architectural and urban historians investigating Latin America"--
