The Zona Nathan L. Yocum 2012-02 It started with the Storms.The world got too hot too fast. The weather wrecked Hell on man's shiny, pretty civilization. With the heat and wet came bugs, with bugs came new diseases, and man's numbers and sanity dwindled.The survivors reformed governments like petty shadows of the world's old empires. They sought answers and justifications, they sought redemption for what they perceived as man's holy smiting.Welcome to the Arizona Reformed Theocracy, otherwise called The Zona.Here the Church rules with power absolute. The laws are simple, all sin is punished swiftly. Preachers enforce the Church's words like old West lawmen.But what happens when a Preacher refuses to kill? What happens when men of honor take a stand against their rulers?

Making an Impact on Mental Health and Illness James N Kirby 2020-09-23 Advancements in research in psychological science have afforded great insights into how our minds work. Making an Impact on Mental Health and Illness analyzes contemporary, international research to examine a number of core themes in mental health, such as mindfulness and attachment, and provide an understanding of the sources of mentally ill health and strategies for remediation. The originality of this work is the embedding of psychological science in an evolutionary approach. Each chapter discusses

the context of a specific research project, looking at the methodological and practical challenges, how the results have been interpreted and communicated, the impact and legacy of the research, and the lessons learnt. As a whole, the book looks at how social environments shape who we are and how we form relationships with others, which can be detrimental, but equally a source of flourishing and wellbeing. Covering a range of themes conducive to understanding and facilitating improved mental health, Making an Impact on Mental Health and Illness is invaluable reading for advanced students in clinical psychology and professionals in the mental health field.
