Applying Nanotechnology for Environmental Sustainability Joo, Sung Hee 2016-08-04 Nanomaterials have been used for years in industries such as consumer products, textile production, and biomedicine, yet the literature outlining their use in environmental causes is limited. The safety, toxicity, transportation, and removal of this technology must be addressed as nanotechnology and

nanomaterial use is expected to grow. **Applying Nanotechnology for Environmental Sustainability** addresses the applications of nanomaterials in the field of environmental conservation and sustainability, and analyses the potential risks associated with their use. It elucidates the scientific concepts and emerging technologies in nanoscience and nanotoxicity by offering a wide range of innovative topics and reviews regarding its use. This publication is essential for environmental engineers, researchers, consultants, students, regulators, and professionals in the field of nanotechnology. *The Hedaya, Or Guide* 'Alī ibn Abī Bakr Marghīnānī 1870 Translated ... by C. Financing the Development of Old Waqf Properties Magda Ismail Abdel Mohsin

2016-10-21 This book presents successful case studies in Muslim and Muslim minority countries that have revolutionized the redevelopment of idle waqf properties into productive land trusts. The revival of this institution over the last two decades shows the growing optimism in galvanizing the socioeconomic role of waqf by adopting its flexible shariah measures. Innovative ways of financing redevelopment allow Muslims to extend these roles to include new beneficiaries. New uses for these properties include providing services to the community, opening jobs for the majority of people, funding small entrepreneurs, educating the masses, providing health care, and sheltering the poor and needy.

Countries under study include Sudan, Turkey, Malaysia, Indonesia, Singapore, New Zealand, Kuwait, Oman, Qatar, and Iran. Additionally, the book examines the International Development Bank's role in financing the development old waqf properties in different countries.

The Reconstruction of Religious Thought in Islam Mohammad Iqbal
2013-05-22 The Reconstruction of Religious Thought in Islam (1930) is Muhammad Iqbal's major philosophic work: a series of profound reflections on the perennial conflict among science, religion, and philosophy, culminating in new visions of the unity of human knowledge, of the human spirit, and of God. Iqbal's thought contributed significantly to the establishment of Pakistan, to the religious and political ideals of the Iranian Revolution, and to the survival of Muslim identity in parts of the former USSR. It now serves as new bridge between East and West and between Islam and the other Religions of the Book. With a new

Introduction by Javed Majeed, this edition of The Reconstruction opens the teachings of Iqbal to the modern, Western reader. It will be essential reading for all those interested in Islamic intellectual history, the renewal of Islam in the modern world, and political theory of Islam's relationship to the West.

Alliances in the Anthropocene Christine Eriksen 2020-02-29 This book explores how fire, plants and people coexist in the Anthropocene. In a time of dramatic environmental transformation, the authors examine how human impacts on the planetary system are being felt at all levels from the geological and the arboreal to the atmospheric. The book brings together the disciplines of human geography and art history to examine fire-plant-people alliances and multispecies world-making. The authors listen carefully to the narratives of bushfire survivors. They

embrace the responses of contemporary artists, as practice becomes interwoven with fire as well as ruin and regrowth. Through visual, textual and felt ways of being, the chapters illuminate, illustrate, impress and imprint the imagined and actual agency of plants and people within a changing climate — from Aboriginal ecocultural burning to nuclear fire. By holding grief and enacting hope, the book shows how relationships come to be and are likely to change due to the interdependencies of fire, plants and people in the Anthropocene.

Being Muslim in South Asia Robin Jeffrey 2014-04-17 This book contributes to the rich recent scholarship on contemporary Islam in South Asia. It provides insights into the controversies of the past 150 years over how South Asian Muslims ought to respond to the challenges of modernity and Western imperialism.

Though such contests of ideas began with a few intellectuals, their consequences flowed through to touch the lives of ordinary people. The book also traces the processes, in train since British times, that have created large social categories out of diverse, dispersed communities. In the past, such communities shared only a common devotion, a sacred book and the duties the book enshrined. This volume highlights the diversity of peoples and practices among South Asians who follow Islam. Readers learn about aspects of those practices in the resolution of disputes, the education of children, the marriage of offspring and the recreations of leisure time. The book does not underplay the violence, oppression and uncertainty that Muslims of South Asia too often face in recent times. The essays of Irfan Ahmad and Khaled Ahmed focus on these sombre aspects. Overall, the book invites readers to contemplate the diverse

Land, Labour and Livelihoods Bina Fernandez 2016-11-25 This book brings together a unique collection of theoretical and empirical analyses of women's access to land, labour and livelihoods in contemporary India. The authors recognize that gender relations must be viewed intersectionally, along with other social relationships such as caste, ethnicity, religion, sexuality and age, in order to inform an integrated analysis of women's persistent disadvantage in India. The chapters examine a diverse range of rural and urban livelihoods within sectors such as tea plantations, nursing, hair salons, sex work and waste collection. Documenting the shifts in these sectors in the context of economic liberalization, the authors offer insights on the challenges of development

Al - Hidayah (The Guidance) Burhan Ad-Din Al-Farghani Al-Marghinani 2020-10-13 The Hidayah has dominated the field of Islamic jurisprudence since the day it was written over 800 years ago. It has been the primary text used by Muslims jurist to issue authentic and reliable rulings on Islamic law according to the school of Imam Abu Hanifa (d 150H/767CE). The Hidayah commands such an authoritative position amongst the doctors of law that the knowledge of a scholar who has not read it is not considered reliable. It has been a standard text in the curricula of Islamic law schools since the 12th century. It was first translated into English by Charles Hamilton in 1791. Around 70 huge commentaries,

some spread over more than a dozen volumes have been written on it. The number of explanatory glosses is in thousands. Comprehensive in content and conveniently organized, with the publication of this all previous works that discussed Islamic jurisprudence according to the Hanafi law become outmoded and soon fell into disuse. If revealed books are not taken into account, never has a book received so much attention as the Hidayah. This landmark publication of the Hidayah not only has been translated in its entirety for the first time but has been done so from Arabic, the language in which it was written. The author, Shaykh Al Islam, Burhan Al-Din Marghanani (d 593 AH/ 1197 CE) was considered to be the leading jurist of the Muslim world in his times. "The hidayah is justly celebrated as the most practical and useful summary compilation of Hanafi jurisprudence. It has been a

standard text in the curricula of Islamic law schools since the 12th century. It was first translated by Charles Hamilton in 1791. A new translation into modern English has been long overdue. This translation by Imran Ahsan Khan Nyazee is both precise and straight forward. With his knowledge of Islamic law and jurisprudence combined with his command of both the Arabic and English languages, he has conveyed the meaning of the original with great clarity. The hidayah is a dense work, intended for use in teaching Hanafi fiqh - it is a work that needs explication if its arguments are to be understood fully. This the translator has provided through this valuable notes" Dr Mohammad Akram Nadwi, research fellow, Oxford centre for Islamic studies, Oxford

relationship between Islamic education and radical Islam. Media reports tend to paint madrasas--religious schools dedicated to Islamic learning--as medieval institutions opposed to all that is Western and as breeding grounds for terrorists. Others have claimed that without reforms, Islam and the West are doomed to a clash of civilizations. Robert Hefner and Muhammad Qasim Zaman bring together eleven internationally renowned scholars to examine the varieties of modern Muslim education and their implications for national and global politics. The contributors provide new insights into Muslim culture and politics in countries as different as Morocco, Egypt, Pakistan, India, Indonesia, Iran, and Saudi Arabia. They demonstrate that Islamic education is neither timelessly traditional nor medieval, but rather complex, evolving, and diverse in its institutions and practices. They reveal

that a struggle for hearts and minds in Muslim lands started long before the Western media discovered madrasas, and that Islamic schools remain on its front line. Schooling Islam is the most comprehensive work available in any language on madrasas and Islamic education.

RSS, School Texts and the Murder of Mahatma Gandhi Aditya Mukherjee
2008-08-05 RSS, School Texts and the Murder of Mahatma Gandhi undertakes the novel experiment of juxtaposing three apparently quite different issues, the nature of the RSS school textbooks, the murder of the Mahatma and the basic ideology of Savarkar and Golwalkar. While deeply delving into all three aspects, it brings out the deep connection between them. The book, which brings out the basic ideological underpinnings of the Hindu Communal Project, is divided into three parts. Part I discusses how this ideology is propagated

among young impressionable minds through school textbooks. Part II studies the role of the Sangh combine in the murder of Mahatma Gandhi and Part III analyses the basic elements of the Hindu communal ideology, as propounded by some of its founders like Savarkar and Golwalkar. The book brings home to us in a dramatic manner the great threat communalism poses to our society, thus making it a must-read for the general educated reader, including politicians, political workers, social activists and journalists.

Delhi By Heart Raza Rumi 2013-04-30 A sensitively written account of a Pakistani writer's discovery of Delhi Why, asks Raza Rumi, does the capital of another country feel like home? How is it that a man from Pakistan can cross the border into 'hostile' territory and yet not feel 'foreign'? Is it the geography, the architecture, the food? Or is it the streets, the festivals and the colours

of the subcontinent, so familiar and yes, beloved... As he takes in the sights, from the Sufi shrines in the south to the markets of Old Delhi, from Lutyens' stately mansions to Ghalib's crumbling abode, Raza uncovers the many layers of the city. He connects with the richness of the Urdu language, observes the syncretic evolution of mystical Islam in India and its deep connections with Hindustani classical music - so much a part of his own selfhood. And every so often, he returns to the refuge of Hazrat Nizamuddin Auliya, the twelfth-century pir, whose dargah still reverberates with music and prayer every evening. His wanderings through Delhi lead Raza back in time to recollections of a long-forgotten Hindu ancestry and to comparisons with his own city of Lahore - in many ways a mirror image of Delhi. They also lead to reflections on the nature of the modern city, the inherent conflict between the native and

The Shias of Pakistan Andreas Rieck
2016-01-15 The Shias of Pakistan are the world's second largest Shia community after that of Iran, but comprise only 10-15 per cent of Pakistan's population. In recent decades Sunni extremists have increasingly targeted them with hate propaganda and terrorism, yet paradoxically Shias have always been fully integrated into all sections of political, professional and social life without suffering any discrimination. In mainstream politics, the Shia-Sunni divide has never been an issue in Pakistan. Shia politicians in Pakistan have usually

downplayed their religious beliefs, but there have always been individuals and groups who emphasised their Shia identity, and who zealously campaigned for equal rights for the Shias wherever and whenever they perceived these to be threatened. Shia 'ulama' have been at the forefront of communal activism in Pakistan since 1949, but Shia laymen also participated in such organisations, as they had in pre-partition India. Based mainly on Urdu sources, Rieck's book examines, first, the history of Pakistan's Shias, including their communal organisations, the growth of the Shia 'ulama' class, of religious schools and rivalry between "orthodox" "ulama" and popular preachers; second, the outcome of lobbying of successive Pakistan governments by Shia organisations; and third, the Shia-Sunni conflict, which is increasingly virulent due to the state's failure to combat Sunni extremism.

The Defining Moments in Bengal
Sabyasachi Bhattacharya 2014-05-27 This

work explores some of the constitutive elements in the life and mind of Bengal in the twentieth century. The author addresses some frequently unasked questions about the history of modern Bengal. In what way was twentieth-century Bengal different from 'Renaissance' Bengal of the late-nineteenth century? How was a regional identity consciousness redefined? Did the lineaments of politics in Bengal differ from the pattern in the rest of India? What social experiences drove the Muslim community's identity perception? How did Bengal cope with such crises as the impact of World War II, the famine of 1943 and the communal clashes that climaxed with the Calcutta riots of 1946? The author has chosen a significant period in the history of the region and draws on a wealth of sources archival and published documents, mainstream dailies, a host of rare Bengali magazines, memoirs and the literature of
